CBISA™ for Sustainability

Sustainability involves managing the significant economic, environmental and societal impacts the organization causes or contributes to.

Why CBISA™ for Sustainability is right for your organization

- All sustainability plans, strategies, outcomes and impacts in one convenient database
- Easily supports data collection, analysis and validation for your sustainability report
- Real time data
- Makes external assurance easier and more cost-effective
- Aggregated and disaggregated reporting by locations and lines of business

Manage all sustainability data in one place with CBISA™ for Sustainability

Areas of Need
Goals
Indicators & Measurements
Outcomes
Partnerships
Programs & Contributions
Narratives
Reports

With CBISA™, Lyon Software offers a Web-hosted solution to your tracking and reporting needs

- Minimal IT involvement; we host the software
- 256-bit encryption; your data is always secure
- Access 24/7 from IE, Firefox, Chrome or Safari

Plus…

- Free web-based trainings
- Free unlimited telephone technical support
- Multiple user permission levels

It all begins with assessment of critical Needs

- Economic areas of need
- Environmental areas of need
- Social areas of need

Record organizational Goals

- Establish company goals to address external or internal needs
- Track community goals

Track progress with Indicators

- Build and use unlimited, customizable indicators
- Measure actual progress against baselines and targets

Document Outcomes and organizational impact

- Economic improvement
- Environmental responsibility
- Social issues

Keep track of Partnerships

- Maintain strategic information on partners
- Record active collaborations
- Evaluate effectiveness of partnerships

Manage Programs & Contributions

- Show support and sponsorship of sustainability causes
- Track internal improvement programs
- Document employee volunteerism

Tell the rest of the story with Narratives

- All of your stories in one centralized location
- Organize by subject
- Great for awards, recognitions, plans, management approaches, materiality notes, stories and anecdotes

Link it together with the Relationship Manager

- Link Needs, Goals, Indicators, Outcomes, Partnerships, Programs and Narratives
- Run comprehensive reports showing interrelationships

Think strategically...Report comprehensively

- Over 60 reports available
- Exportable to Excel and many other formats
- Easy to report to various stakeholders
- Information for your sustainability reports, internal newsletters, marketing or press releases
